Platform	Status
✓ Twitter	posted

 **FIXES VERIFIED**

✓ 1. AI Content Generation

Before: Posted raw prompt

After: Posts AI-generated content

Fix: Changed API URL from `apis.abacus.ai` → `apps.abacus.ai`

✓ 2. Threads Posting

Before: Failed with “text must be at most 500 characters”

After: Successfully published

Reason: AI respects character limits

✓ 3. Late API Format

Before: Wrong payload format caused errors

After: Correct `{ platform, accountId }` and `mediaItems` format

Fix: Updated `cloud-storage-series-processor.ts`

✓ 4. Multi-Platform Support

Result: All 7 platforms posted successfully (6 via Late API, 1 via Twitter API)
